

# Index of Types

---

This Index of Types is arranged in numerical-alphabetical-numerical sequence of types. The letter in the "Section" column indicates the particular section in which the type will be found. The sections are keyed as follows:

**C = Cathode-Ray Tube, Storage Tube & Monoscope**

**D = Receiving-Type Industrial Tube**

**F = Thyatron, Ignitron, & Glow-Discharge Tube**

**G = General**

**P = Photosensitive Device**

**R = Receiving Tube**

**T = Transmitting Tube**

Supplements, when applicable, will appear immediately following this index.

▲ See sheet titled *RCA RECEIVING TUBE TYPES – Supplementary Listing* at beginning of Receiving Tube Section.

□ See sheet titled *RCA RECEIVING TUBE DATA – Types Not Recommended for New Equipment Design* at beginning of Receiving Tube Section.

\* See sheet titled *RCA TRANSMITTING-TUBE TYPES – Limited Listing* at beginning of Transmitting Tube Section.

● Discontinued type. Data retained in Handbook for reference purposes only.

*Reference is to front of sheet only unless otherwise indicated. Data appearing on sheet is identified by month and year only (e. g., 4-71).*
